

Reminiscing the Happy Start

All that's been going on at our spirited workspace!

DevX frenzy peaked in the first two months of 2021 with a perfect blend of energy, enthusiasm and determination. We were gushing warmth as we welcomed some fabulous members to our growing family and oh, the good news? Of course, there was no dearth of fun and frolic at our factory of merrymint.

But before we kick start the March Madness, let's take a look at our monthly bulletin! So grab some popcorn and read on!

Events that kept us going!

Spin & Smash

The ecstasy of Table Tennis consumed the entire community in January'21. On the day of the Tournament, the paddlers were cranking up the excitement volumes as the essence of 'every ball counts' intensified. We witnessed impressive vigor and sportsmanship from all the participants and were able to conclude the Spin And Span on a high note with our winners.

THE PANI PURI CHALLENGE

The Flavours of Savoury

Pani puri has a special place in every Indian heart and stomach! So it's no wonder that our Pani Puri enthusiasts had a blast during the competition.

The participant eats the highest number of pani puris to claim the winner's title. They had to dunk the puri into sweet-and-sour tamarind and spicy green chutney pani and then pop the whole thing into their mouth to feel the explosion of flavours. It was such a delight to see everyone indulging in the sucker punch of tastes and textures. Here are the champions of the event:

Parth Gohil

(Royal Clock House)

27 Puris in 2 Minutes

Bhruvish Patel

(Red Clock House)

57 Puris in 4 Minutes

Rahul Sable

(Green Clock House)

27 Puris in 1.5 Minutes

Darshit Modi

(Teal Clock House)

32 Puris in 2 Minutes

Human.e

At Human.e we want to put the human before the E (electronic), we want to use technology to solve the problem technology has created in the first place - cognitive overload. Our mission is to deliver technology that saves human attention rather than steals it. To provide humane AI that assists and augments human intelligence rather than preying on its weaknesses. To progress from simply automating "Jobs to be done" to helping people by providing insights and assisting with "Decisions to be made"
