

Strolling into 2021!

Bidding goodbye to a year that brought the entire world to a standstill, all at once, called for a 'cautious' celebration. Oblivious to what 2021 has in store for us, we look back to the fond memories of 2020, for us to look forward to making abundant of them this year.

In the spirit of new beginnings, achieving greater goals, and staying positive, DevX Family has begun its journey to make 2021 a year to remember and cherish.

Here's to 2021!

Let's set foot into the beginning of an era, together, by taking a quick recap of Dec' 20!

Events that kept us going!

| Retro Reminiscing

Lockdown revived the classic gaming nights across the globe and how! This inspired us to play a guessing game and revere to the good old times. A poster was shown to the gamers which had little hints in the form of pictures of games like Super Mario, Contra, GTA Vice City, Legend of Kage, Circus, Adventure Island, Tetris, etc. It was truly a blast from the past.

When christmas knocks the door, it's time to feel festive and work on secret santa gifts at DevX. This year was no different, all the co-workers participated in the game where they exchanged gifts and greetings secretly with each other out of pure joy and appreciation. The gift exchange was followed by a fun game! A participant was guided by its other team members to place the santa's head on its body whilst being blind folded. Oh, what a fun and laughter filled experience it was.

All Things Christmas! |

Events that kept us going!

Cherish with a Thank You

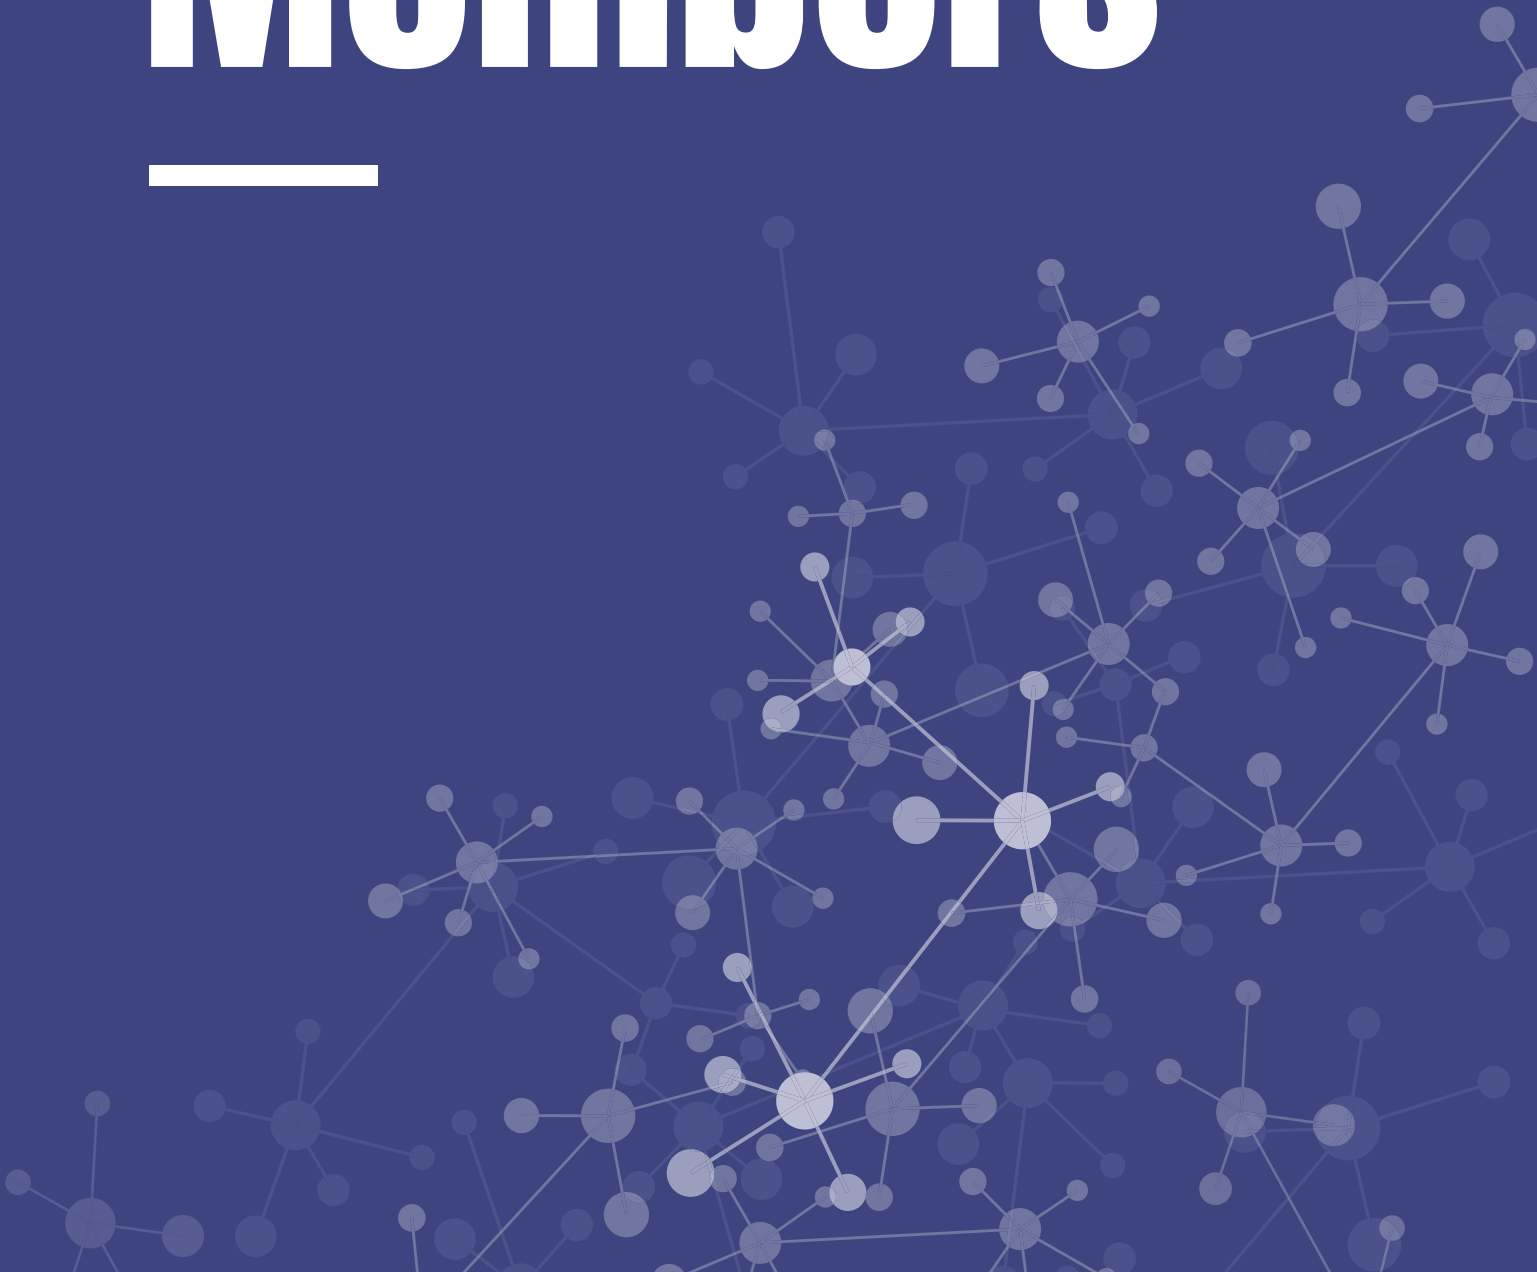

All of us spend a significant amount of our time at work, and consequently, around our team members. And because the time spent together with them is quite a lot, we often miss to express gratitude for all the little things they do! Fetching the warm cup of coffee, lifting up your spirits when low, warm morning greeting and a lot more!

We grabbed this opportunity to share a thoughtful thank you to each coworker by giving them unique badges with an option to add a personalized thank you note. No matter how old school it seems, but everyone does love notes, right? We witnessed an overflow of these little notes and ended up with no badges to distribute along with them. To witness everyone's happiness quotient while receiving these gestures was heartwarming.

Artsea

Artsea is a design centric E-commerce space grounded on the orientation of fashion as a base theme in the deep world of the internet. The idea revolves around the etymology of the company name: Art and Sea wherein we are focused to incorporate independent artwork of underrated artists across India while we contribute our own homegrown artworks too and develop merchandise storefronts of the same on our core website in order to truly form a diverse sea of art.

EVUM

EVUM is a homegrown business that started in Vijaylaxmi's kitchen. A woman who kept looking to make healthy alternative foods for her two sons, and started getting really good at it. All EVUM products are still handmade in the same kitchen, with great focus on quality and cleanliness.

Her idea is to make super healthy food available to everyone, with convenience. "If you have to make a change to the world, you need a healthy youth! Start by feeding them healthy stuff first."

Featured Client of the Month

Bigspoon is a Tier-2 focussed Cloud Kitchen startup with a multi-brand omni channel strategy. Bigspoon has expanded to 7 cities across three states, with presence in Ahmedabad, Surat, Baroda, Indore, Jaipur and Pune to name some cities, with four brands - Makhni Brothers, Oven & Grill, Meals101 and Thali Central.

They have raised \$1 Million equity funds across three rounds, and in the process of raising another INR 12 Crores, to expand to 18 cities and 35 kitchens, across the country, like Bhopal, Nagpur, Hyderabad, Udaipur, Chandigarh and other Tier-2 Cities.

Mission

Holding the critical policy of HETH (Health - Economy - Taste - Hygiene) central to the execution and experience.

Vision

Our vision is to minimise the delta between fine dine and home-delivery experience for the customer and make great food accessible to all.

FEATURED CLIENT OF THE MONTH

In 2019, Kapil Mathrani, Poojan Thakkar and Rohan Bhatt founded Bigspoon Foods. Our Company is a Tier-2 focused Multi-brand and Omni-Channel Cloud Kitchen Start-up based out of Ahmedabad.

Kapil, Poojan and Rohan were on a quest to find a place that served consistently tasty and healthy fresh prep food at scale, accessible to a large tier-2 population that is underserved. Makhni Brothers is Bigspoon's anchor brand, with arguably the finest North Indian cuisine around.

Here's something special for all the foodies out there!
